

Forage Seedling Growth

Dr. Ray Smith

Laura Schwer

Tom Keene

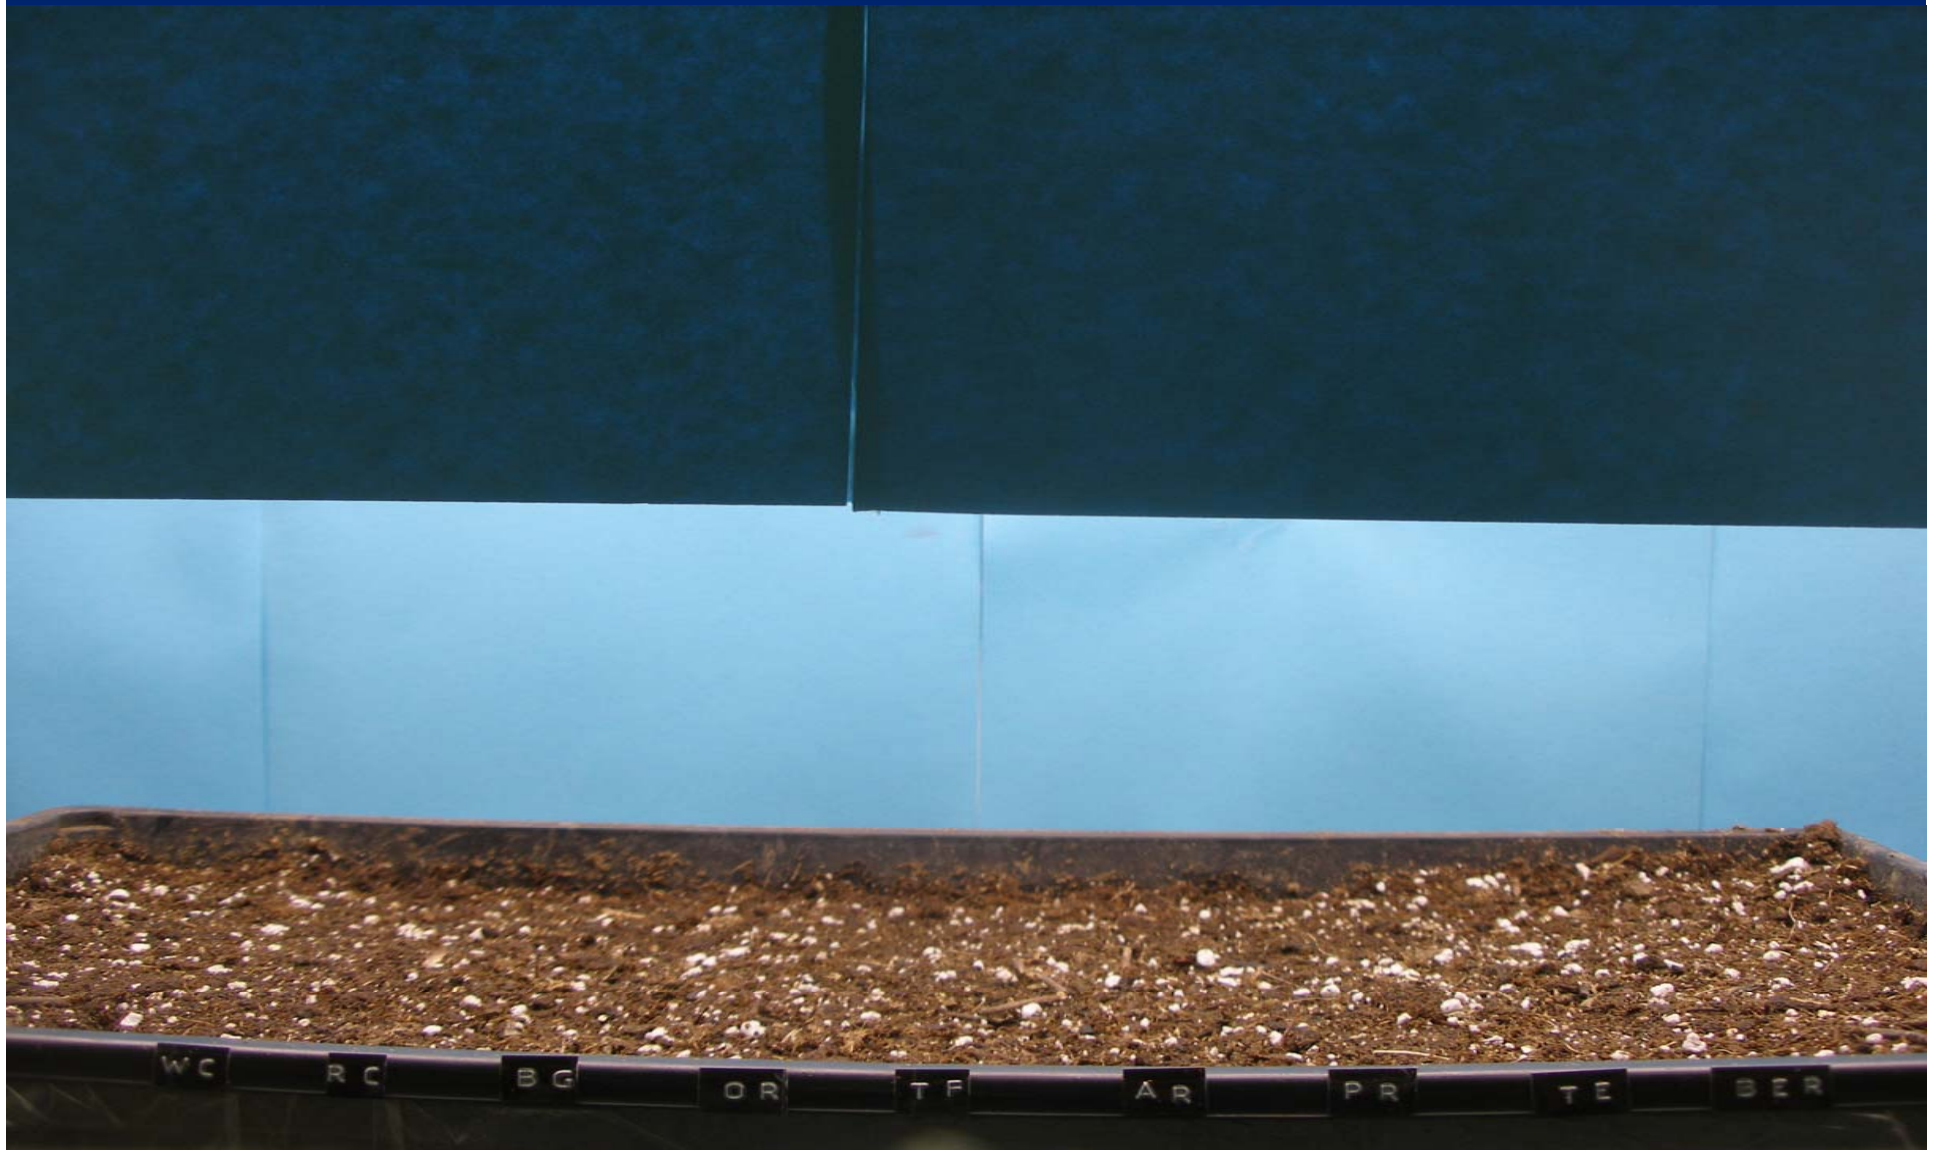

Methods

- Seedling establishment
 - Medium – 2/3 potting mix & 1/3 soil
 - Planting Depth – 1/4 inch deep
 - Day Length – 14 hours
 - Watered as needed

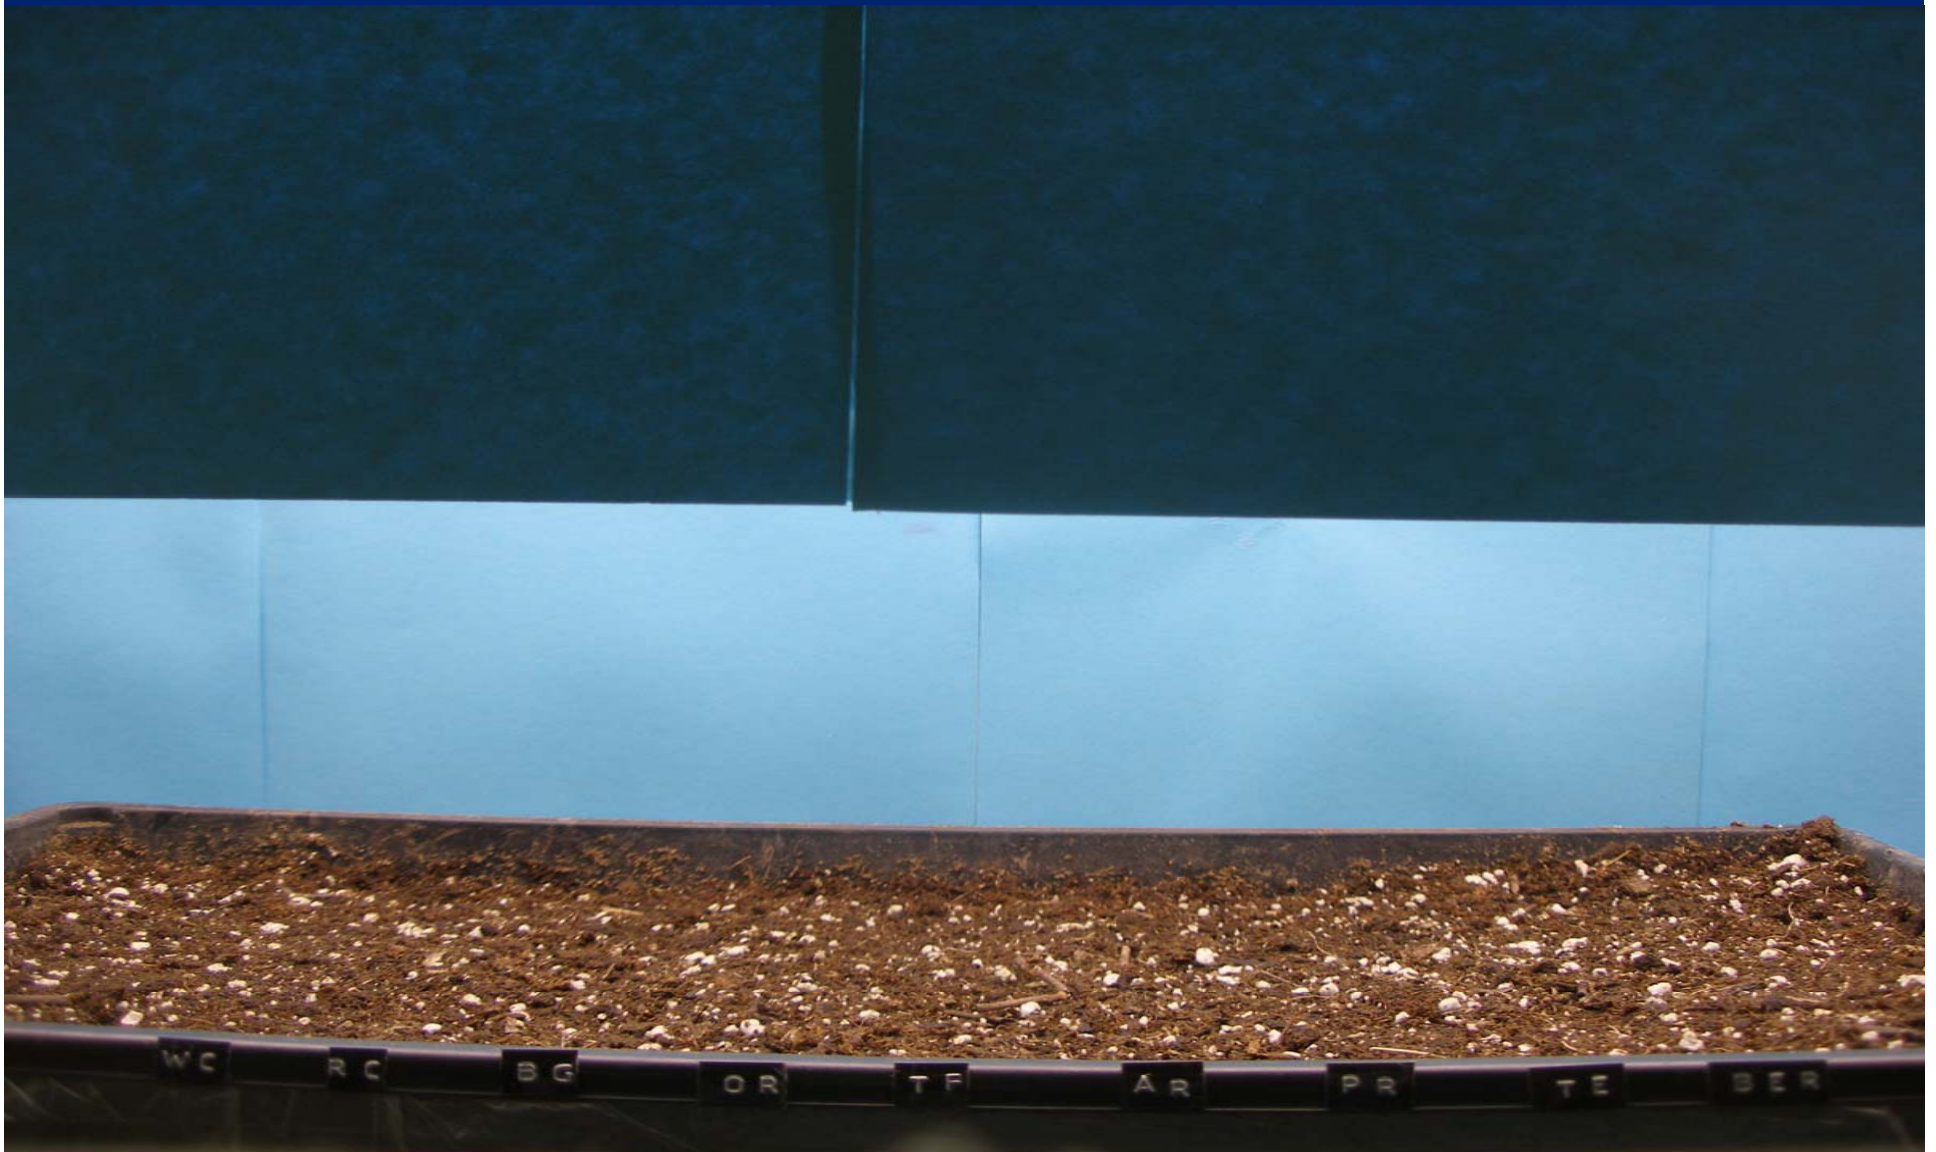

Forage Seedling Species

- WC = white clover (*Trifolium repens* L.)
- RC = red clover (*Trifolium pratense* L.)
- BG = Kentucky bluegrass (*Poa pratensis* L.)
- OR = orchardgrass (*Dactylis glomerata* L.)
- TF = KY 31 tall fescue (*Festuca arundinacea* Schreb.)
- AR = annual ryegrass (*Lolium multiflorum* (Lam.) Husnot)
- PR = perennial ryegrass (*Lolium perenne* L.)
- TE = teff (*Eragrostis tef* (Zuccagni) Trotter.)
- BER = bermudagrass (*Cynodon dactylon* (L.) Pers. (Bogdan))
 - Bermudagrass non-emergence possibly due to bad seed
