

2024 Kentucky Forage Variety Testing Entry Form:

Deadline for receipt of seed:
Spring plantings: *March 15*
Fall plantings: *August 1*

Use this form to for all entries in The Forage Variety Testing Program tests outlined below. Use one form per variety for all tests. Copy this form as needed. Send completed application, **250 grams of seed** per location and payment to **Gene Olson, 1100 South Limestone, N222 Ag Science North, Lexington, Kentucky, 40546-0091. FAX 859 323 1952**; For questions, email glolso2@uky.edu. Seed of experimental varieties can come from the breeder. We request the same generation of seed that will be planted by the farmer. Please make checks payable to the University of Kentucky.

Variety Information									
Please mark whether the variety is experimental and comment on significant morphological and physical traits (including maturity for grasses). Identify variety type for white clover and the ryegrasses. Alfalfa entries should have the fall dormancy and disease resistance ratings also.						Alfalfa Varieties Only			
Entry Name	Experimental?	Comments or Variety Type	FD	BW	FW	AN	PRR	APH1	APH2
	yes / no								

If the variety will be available in Kentucky please list the seed dealers or email me a list.
